THE HEARING AID FOR PEOPLE WHO AREN'T READY FOR A HEARING AID.

AFFORDABLE.

You may be having trouble hearing what people are saying – or are starting to miss out on sounds you once heard – but you're not sure you're ready to wear a hearing aid yet, especially one that people can see.

That's what makes you ready to AMP.

New AMP fits snugly in your ear canal, so no one but you will know it's there. It's comfortable, removable, and ready to wear in a single visit to your hearing professional. Better yet, AMP's small size and ear canal placement take advantage of your ear's natural acoustics for a sound quality you need to hear to believe.

- Fits invisibly in your ear
- Is ready to wear in one visit
- Is easy to remove
